

# NSTU Growth Grant Application

*For teachers advancing inclusive education in Nova Scotia Public Schools*

The remaining NSTU Growth Grant funding will be used for one last round of Growth Grants, but in a different way from previous rounds of funding. For this final round, *active teachers* from across the province can apply for funding to attend one of two specific Education Leadership Consortium of Nova Scotia (ELCNS) modules. Each module will be offered virtually two different times over this summer. The module registration cost of \$500 plus HST will be covered for the successful applicants and directly billed to the NSTU. Successful applicants will receive a link to register for the module they have been selected for in their letter from the NSTU. Regional representation across the province will be a consideration to distribute the remaining funds and access to these modules most fairly.
