

***Please see the following message sent on behalf of NSTU president Paul Wozney.
This will be forwarded to NSTU members with NSTU webmail accounts. Please share widely
with your networks.***

Dear NSTU Siblings,

We have heard many concerns from you over the holiday break around the return to in-person learning for staff and students on January 10. We have heard the stress and anxiety you have been conveying through your emails, direct messages, and social media posts. Please rest assured, your union agrees and is sharing your concerns both publicly and with the employer. Below is a link to a short survey that will provide us with more valuable feedback not only for the employer and Public Health, but also for the public at large.

We are gauging your opinion about Public Health discontinuing contact tracing in schools while declaring it is safe to reopen during the current wave of COVID-19 infection.

Please ensure your voice is heard by filling out this survey: <https://www.surveymonkey.com/r/JZY6W7K>

Your engagement is important and greatly appreciated.

All the best,

Paul
